5

The “Fare Matrix” has been reintroduced as an interactive pop out. Clicking away from it will make it disappear.

Air Results

6

Key Flight information is now easily, consistently found on the left-hand card for each itinerary option. Clicking on the Itinerary Option will expand the details shown for each fare product card arrayed to the right

7

Cabin and Product Name are prominently featured for each available Fare Product

8

The most important fare related information is quick and easy to see: Seat cost, Baggage allotments, refundability, and CO2e

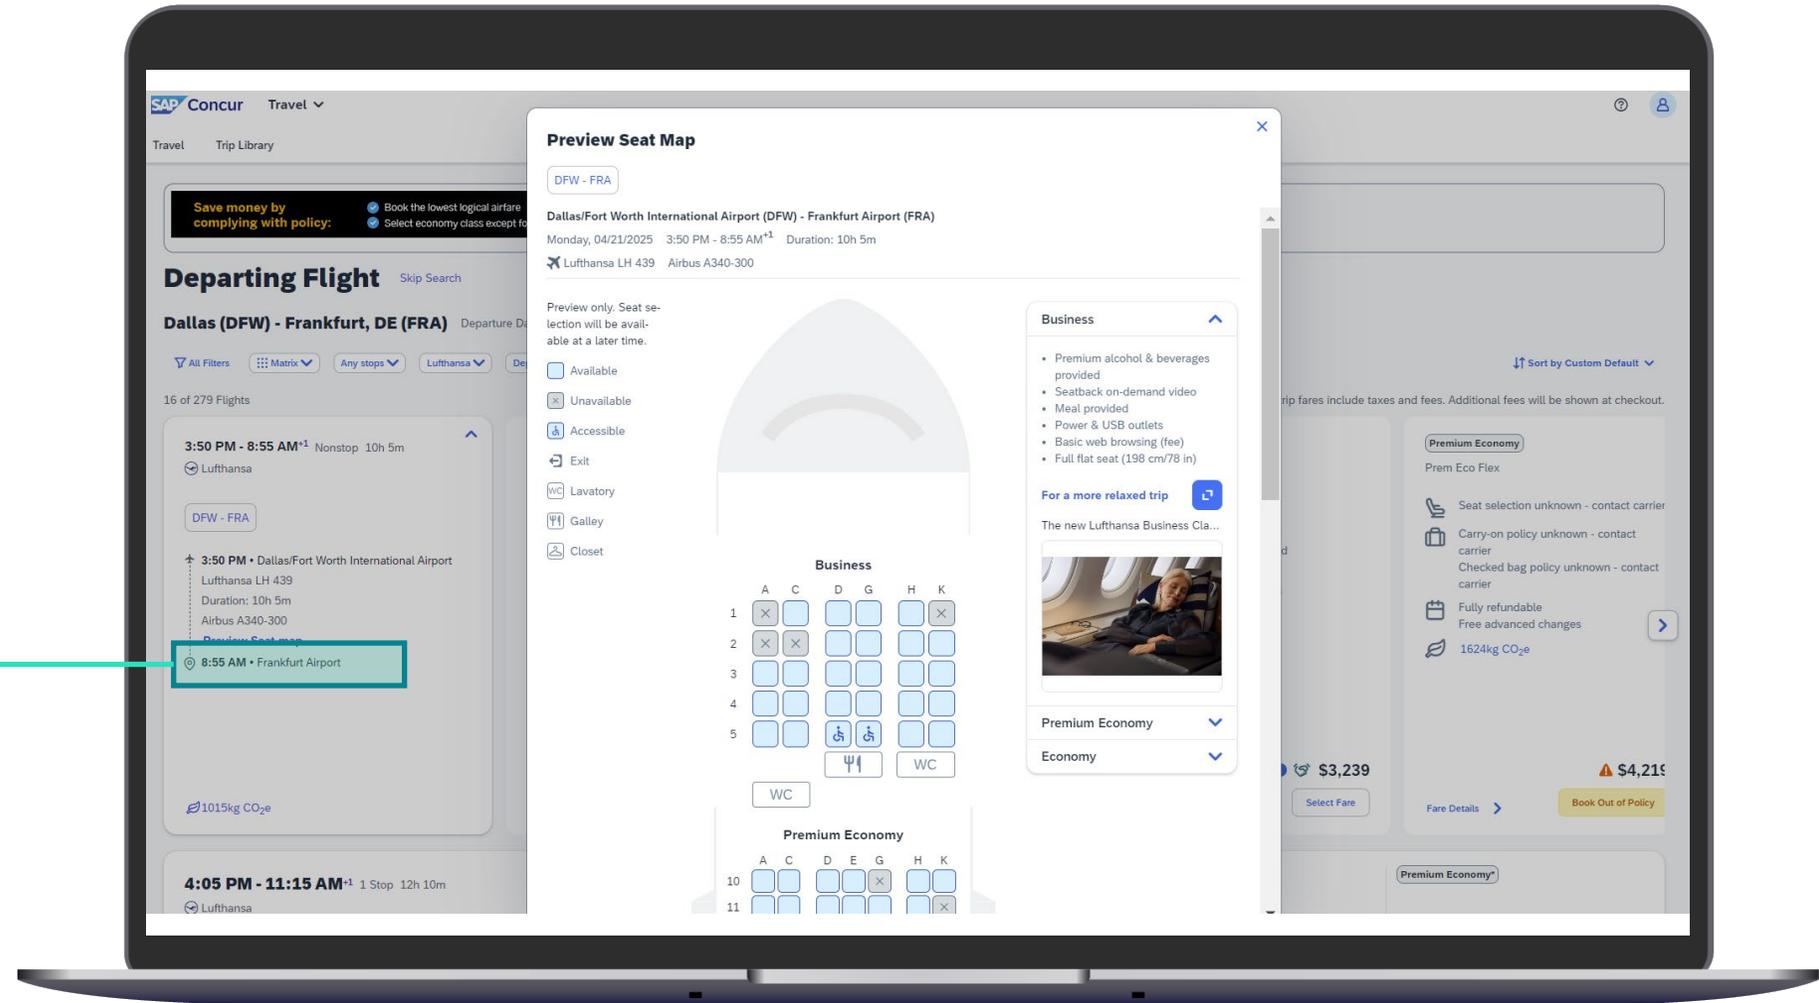

9

All fare products are displayed with policy applied and the bookability is indicated based on policy. This is where the desired fare product is "selected"

Air Results – Seat map

10

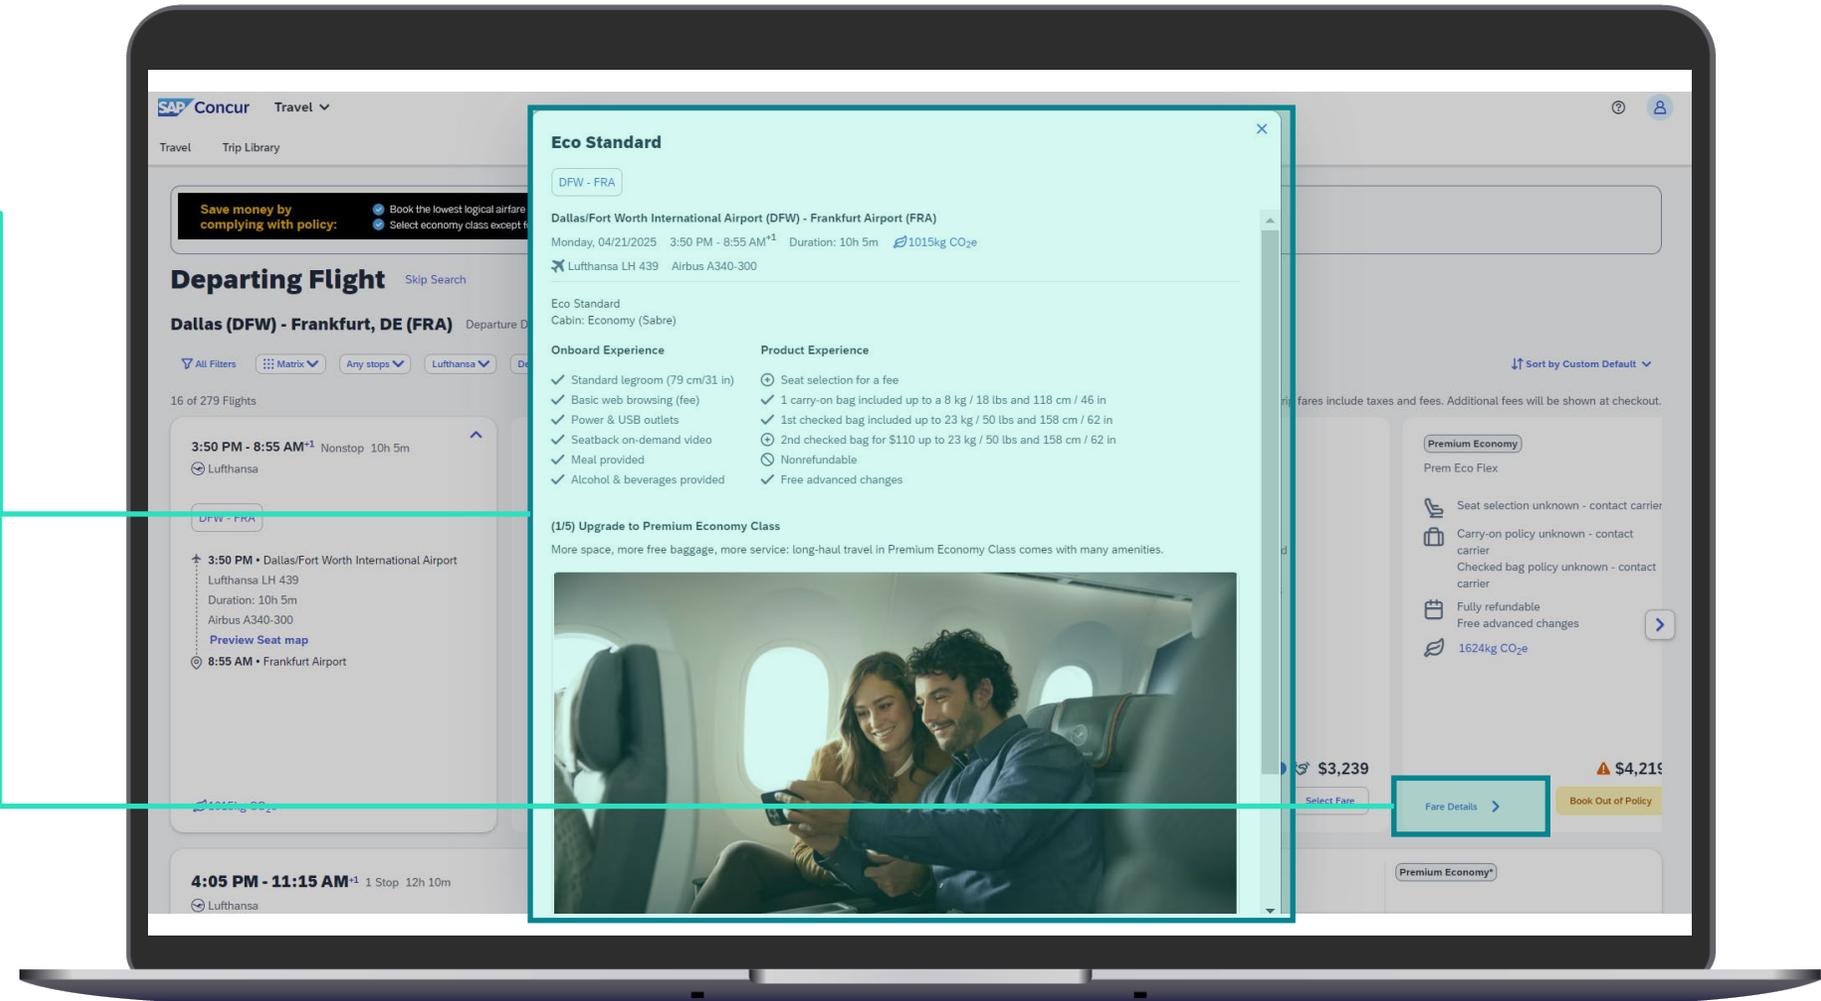

Seat map is now easily viewed by clicking “Preview Seat Map”.
Selecting seats occurs later.

Air Results – Fare details

11

Fare Details is the go-to location for all the rich detail about the onboard experience, the product experience, and rich imagery

Search results are displayed “by leg” rather than as “round trips”. Choose additional flights and fares as needed to build the trip

The screenshot displays a flight search interface for a return flight from Frankfurt, DE (FRA) to Dallas (DFW). The search parameters include the departure date of Friday, April 25, 2025. The results are presented in a table format, showing three flight options. Each option includes the flight time, duration, number of stops, and the airlines involved. The fare information is broken down by cabin class: Economy, Premium Economy, and Business. The Economy fare is \$1,971, Premium Economy is \$2,607, and Business is \$5,720 for the first option. The second option has Economy at \$1,945, Premium Economy at \$2,581, and Business at \$5,694. The third option is partially visible. The interface also includes filters for matrix, number of stops, and airline, as well as a 'Return Flight' button highlighted in a red box.
